Subject: For MIALSH members - 2013 CLPPP Data Report

Attachments: 2013 CLPPP Data Report PRELIM.pdf

Hello all,

Please see attached PRELIMINARY report. For the final report, the numbers will change slightly but the percentages probably won't.

Blood lead testing is down slightly from last year (which has been a recent trend). Elevated blood lead levels are down by number and percentage, as they have been almost every year since we started tracking them.

Let me know if you have questions.

Bob
