Subject: RE: Emergency Elevated Lead Management in Flint, financial vehicle for Follow-up Nurses

Hi Mark,
We need to set this up as a new project.

Please send the project title and the amount to the shared mailbox and copy the budget liaison. Please also include the project period and any provisions/requirements to be added to Attachment III.

This project will be released as soon as we receive the information.

This project will be in the executed amendment as soon as the application is submitted and approved.
Thank you,
Jeanette

Subject: Emergency Elevated Lead Management in Flint, financial vehicle for Follow-up Nurses
Importance: High

Jeanette and Nancy,

I just had a call with Sue, Rashmi and Genesee on possible vehicles to get nurses to do the follow-up on children in Flint with elevated lead levels.

Mark Valacak, the health officer already has a nurse, Sherry XXXX, who is experienced in lead management, but currently working in immunization. He also has another nurse ID'ed who can do the task. Depending on how much \$ we send, he could get a couple more nurses for the follow-up, from his seasonal nurse bank (retired public health nurses).

At any rate, looks like the vehicle would be through the GCHD, rather than us trying to contract from up here.

Nancy what do you think of this scheme?

Jeanette, how should we work this in Egrams. Set up a separate new project?

Augment an existing project, like MCH Block Grant?

Some other procedure?

What would be fastest?

Thanks

Mark Miller
