We need to have some conversation with them to understand the data -- not sure if that will change anything. But I'm very concerned that the # of children actually receiving CM is quite low. More than last week, but still quite low. I'd like to get their perspective on what they think is happening, barriers and challenges, etc. We have a call with them today, will broach the topic then.

*"Gratitude unlocks the fullness of life. It turns what we have into enough, and more. It turns denial into acceptance, chaos to order, confusion to clarity. It can turn a meal into a feast, a house into a home, a stranger into a friend. Gratitude makes sense of our past, brings peace for today, and creates a vision for tomorrow." -
