Subject: FW: Draft Action Plan

This is the short version that she wants input into the attached chart.

Over the last week, DHHS (PHCSA) actions focused on supporting Genesee County Health Department and other state departments in coordinating:

Filter/Water Distribution:

- changes to the cloud-based database to compile all records of filters distributed and type of filter (in preparation for replacement filter distribution)

Blood testing and Case Management Follow-up:

- protocol finalized for blood testing and follow-up
- protocol development for case management of confirmed children with EBL 5 and over (will be finalized by Friday)
- contract (project) via e-grams to GCHD for nurse case management

Elevated Blood Level Investigations:

- bids taken and contract development underway for contractor to conduct investigations in homes with elevated blood lead (EBL)

Communications:

- completion of FAQ and Infographic for posting on the Governor's website
- assisted MDARD on development of communication to food service establishment re: City of Flint water
- development of a letter and resources for schools to send to parents (education and encouraging testing) and a letter to providers, daycares, and Head Start Programs
- outreach to area laboratories regarding reminder of lead reporting requirements
- daily internal calls and daily calls with GCHD
- response to public phone calls about the Flint water issue

Miscellaneous:

- support to DEQ for water testing in the schools developing protocol for water testing and screening levels for evaluation of water data of schools
- participate (Linda and Eden) in the Mayor's Technical Advisory Committee and in weekly subcommittee meetings to address water sampling efforts in Flint schools
- began discussions on evaluation metrics and reporting for investigations and case management
