Subject: February 2014 Blood Lead Testing Report
Attachments: 201402.pdf; February 2013 - February 2014 - PPC.pdf

Attached you will find the February 2014 Medicaid Blood Lead Testing report.

This report is produced on a monthly basis. The purpose of the Blood Lead Testing Report is to provide information on blood lead testing in the Medicaid population.

Effective October, 2010, Medicaid Health Plans were contractually required to ensure that at least eighty (80) percent of continuously enrolled two (2) year old children have had at least one (1) blood lead test on/or before their second birthday.

Effective August 1, 2012, McLaren Health Plan assumed CareSource Michigan's Medicaid operations in Michigan.

For February 2014:

- 5 out of 13 met the continuous enrollment requirement.

An additional report, **February 2013 – February 2014 - PPC.pdf**, demonstrates the progress that each health plan has made on "two year olds" blood lead tested over the past 12 months.

Please feel free to contact Qian (Daisy) Peng at 517-241-1388 or Qian.Peng@Michigan.gov if you have any questions or concerns regarding these reports.

Thank you.
