Subject: notes from 12:30 briefing on Flint lead

recommendation - letter to families to go to PCP for testing, share education info
OUT FROM?

WHO IS THE LETTER GOING

recommendation - letter to PCPs, about how to respond to families

Q: DEQ water testing in schools - needs to be coordinated with what we do with schools - how do we get that information into any letter that goes out?

GEORGE KRISTZIAN - Linda write an email of introduction, then I add him to the group to review the letter, etc.

Can our CLPPP nurse start to pull pieces out into a 1-page protocol for testing? WE can draft something - (for Wednesday...Nick needs to update the Governor)

Aiming to start EBL as of November 1st...probably have to confirm through City of Flint that a house/person is on Flint water.

Case Management ?? visiting nurse agencies that work in the homes? stipend for someone to accompany the nurses?

Safety? law enforcement to accompany nurses/EBL investigators - can we contract with somebody in the community to accompany the people?
