We've been having the same conversation here – yes, we can do that, happy to do that. Bob was starting to work on a format this morning. If you have specific information you would want in a weekly report, let us know, as that will help us to pull what you really need. I know Epi was also talking about a weekly analysis of sorts, which I think would go more in-depth than the counts and such we can give you as a starting point.

Nancy

Yes,

I almost think we should get weekly summary. How many test have been done since the first press conference (9/28?)

Subject: BLLs Latest

Hi Nancy and Bob,

Out of curiosity, could we begin looking at pulling some data about recent Flint BLL data? I think all results have to be reported to us within 5 days of the test result, correct?

If so, is there any chance we can begin taking a look at what that data is telling us? Not wanting to do anything with it yet, but just trying to think a little more proactively.

Thanks,

Angela Minicuci
