No. We are just trying to get it in the hands of Flint providers. It is not being widely advertised about Ready to Feed. Other WIC agencies are proceeding as usual, without anyone asking about Ready to Feed, so we don't want to put it out on the website and confuse others.

Thank you ladies. Will this information also be posted to the flintwater webpage?

The info that just went out to Genesee County Health Dept to share with their WIC providers relates to Ready to Feed Formula.

Attached is what we sent them.

Hi Pam -- thank you, that would be great, we really appreciate any help in getting information out to the Flint area physicians. It's fine if you send the message, it doesn't need to come from us necessarily, but we're happy to help co-author if that would help you. Either way! Also, there is a new letter from WIC going out to Providers, we may want to see if we can get that into your hands as well -- I've copied Rashmi Travis on this email as she has access to the newer WIC information.

Nancy

Hi Nancy- Would you also be interested in us sending some messaging to providers who are enrolled in FFS Medicaid about this? We have e-mail addresses for around 90% of our enrolled providers, so we could easily send out an e-mail blast on this, or if you'd rather, send you the file for your own messaging. We don't usually share provider contact information outside MSA, but this is probably a good reason to do so. Let me know what you think. Thanks Nancy. Pam

Subject: Physician resources regarding Flint water

Good afternoon, everyone -- as part of the MDHHS Action plan regarding Flint water, we wanted to share with you the attached Provider letter, with several resource documents that accompanied the letter. The letter was distributed by email to local Physicians on October 30th, by the Genesee County Health Department.

For our colleagues in Medicaid, could we please ask your assistance in sharing the Provider letter and resources with your contacts at the Medicaid Health Plans that currently or will be working in Flint and Genesee County, and the surrounding areas? In turn, it would be helpful if the plans could share these with their enrolled providers. We want to assure that the materials reach any providers who may be seeing Flint families and their children. These materials are also available at the following website: www.michigan.gov/flintwater

Many thanks for any assistance you can give with distributing these materials. Please share any questions you have, or you receive, with Rashmi and I.

Nancy
