**Subject:** Lead Case management for 6 through 17 year olds  
**Attachments:** FLINT BLOOD LEAD CM - weekly status tracking form v5 12.22.15.xlsx

Good morning, Jori. Per our conversation last week, I am verifying that GCHD is able to provide lead case management services to children aged 6 through 17 years of age under our contract, as you see appropriate. This would cover children living in Flint or Genesee County exposed to Flint water. Bob Scott has changed his data sheet to add a tab with a list of children in this age group. I have attached a revised weekly reporting form shortly, that adds a row to capture information on any CM activities that you do provide to this age group.

Please let me know if you need further information or documentation from MDHHS.
