Good afternoon Susan

Mark Valacak recommended that I be the contact person for the County. Please feel free to forward Liane my information.

The Flint DPW has assured us that water leaving the plant is safe and meets all the Safe Drinking Water Act standards. The DPW primarily has challenges with the aging distribution system. The use of the Flint River and recent boil water advisories has received a lot of attention from the local media and community.

I am meeting with the Flint DPW and McLaren Hosp Admin this Thursday, Oct 30. Many of our confirmed legionella cases had been admitted to McLaren Hosp prior to being diagnosed. We have nothing conclusive at this point and are still gathering information.

Please let me know if you have any questions, concerns, recommendations, etc...

Thanks

Jim Henry
