if you can add me in to the permissions as well, I would appreciate that as I may be able to assist Eric in some capacity posting or editing content.

I have reviewed the link to the site provided below. I really like the way it looks and I would lean toward working with Michelle for a couple reasons. The first is that I am new in my role and I cannot update or change much on my own yet. Second, I am going to be in Flint covering the event on Friday and not able to make on the fly changes to the page that may pop up. So I would prefer that the DEQ doesn't host the page, as long as we can request/make changes as needed going forward. I can work with Karen to get you all the materials you will need for the initial page setup too. Does that make sense to everyone as a plan for this?

We'd like to host the flint water site on the DEQ's website. Eric had a location selected in the drinking water section of our site. Eric?

Bob, Eric;

Let us know what your plans are, and if you need any assistance. The new site requested by the Governor's office is already in-progress and we are waiting for content and possible design changes.

<http://w3.michigan.gov/flintwater>

There will be links to other resources on the new /flintwater site, so if you have relevant content on your sites (DEQ and/or MDARD), just let us know and we will be sure to include it.

Hi everyone,

Regarding the Flint water website, it seems there might be two separate projects happening at once.

I just spoke with Karen (PIO at DEQ), and she said that Bob Andorfer and Eric Shaw are working on a flint water site.

Our team in the Gov's office asked John Estill and Michelle Stiffler to start on a site, too .

I'm not sure if you four have been working together, but we wanted to make sure moving forward that we are all on the same page.

Best,

Josh Paciorek
