

Below is the in-progress shell, with a couple of stock images just for fill and the categories that were initially requested. I have created a 'Flint Water Admin' group and added you to it, so you should be all set with adding content when you're ready.

Just let us know what cosmetic changes you need, and if you would like any special components such as toggle and/or accordion for the FAQ, etc.

Subject: RE: New web page

Hi Michelle and John,

Also, I know in the first email I wrote, "
The 'header' should be: "Understanding the Flint Drinking Water
Situation"

We'd like to change that to "Taking Action on Flint Water."

Thank you!

Josh,

if you could provide a site path, I can get started with the basic shell. Below is just a suggestion:

michigan.gov/flintwater

Great, John! Thanks.

It should be a relatively small site and it should be kept very basic like the www.mi.gov/Detroitcaniwait or www.michigan.gov/highlandparkschools sites.

I can assist with the creation & publishing of the content. Just let me know what you'll need from me, and I'll be in touch later today as I learn more about exactly what they want included on this site.

Thanks again

Josh

Subject: RE: New web page

Hi Josh,

Please work with John Estill and Michelle Stiffler to help get the site created. They are also involved in the launching of the new MDDHS this week so as long as this is going to be a relative small site with not a lot of back and forth changes they should be able to get it done by Friday. Is there someone that can assist with the creation and the publishing of the content so that John and Michelle can focus on getting the graphics and structure of the site built out?

Thanks,
John Thompson
