For the 4th bullet, can we change it to "\$850,000 will aid in follow up services for children, including testing, investigations, and case management for those with elevated blood lead levels."

Hi, Anna. Quick observation on this line:

"The signing of this funding bill is the resolution of a serious problem and I'm pleased so many parties came together to help deliver safe drinking water to the city of Flint,"

I would suggest the word "resolution" not be employed there. Maybe the signing of the bill "begins to address", or maybe "allows us to respond" to the serious problem.

Let me know if you have changes.
