Subject: LARA - Flint

Guys, what's your availability for a quick call to go over the LARA piece in more detail? Below is language that can be used as part of a larger message on the state's efforts.

.....

- On October 16th, LARA and DEQ staff met with Flint Community Schools officials. LARA staff then began a review of building plans and permits in order to assess the building plumbing in all 13 Flint Public School buildings.
- The assessment allows LARA staff to identify plumbing components of concerns and prioritize sample sites within each building.
- On October 23rd, LARA staff will begin to identify of all faucets, taps and outlets that are used regularly by students and staff for drinking and cooking.
- After the sites and order of collection have been determined by LARA staff within a building, state officials can begin to take samples.
