

- * Providing free water filters to residents.
- * Expanding health exposure testing of individual homes.
- * Accelerating corrosion controls in the Flint drinking water system.
- * Accelerating water system improvements to address replacing lead service lines.
- * Expediting the completion of the Karegnondi Water Authority pipeline.
- * Expanding a Safe Drinking Water Technical Advisory Committee to ensure the best technology, practices and science are being followed by adding an expert from the Environmental Protection Agency's Office of Research and Development to the group.
- * Naming Dr. Eden Wells, chief medical executive for the Michigan Department of Health and Human Services, as the Flint drinking water public health adviser.
- * Boosting a comprehensive lead education program to make sure residents have detailed information about how to protect themselves and their homes.

Subject: New query from the Rachel Maddow Show

Hi, Dave,

Can you tell us, please, whether the governor has received (or expects to receive) the declaration of disaster from the City of Flint, regarding its water situation? And can you tell us, please, whether the governor intends to support, amend or reject that declaration for the purposes of state and/or federal assistance?

Thank you again for the help.
