Subject: Mott foundation wants to talk to the Governor

Importance: High

Allison—

I just got a call from Ridgway White, President of the C.S. Mott Foundation, and he wants to speak to the Governor about the Flint water supply issue. I am sure you know who they are, but to be sure, Ridgway kayaked with Rick on the Two Hearted, they put tens of millions into Flint every year, are based there, and likely to be willing to help resolve the problem.

He wasn't sure who to call to get that call scheduled, I told him I would do that through you, and he wanted to call you right away. I wanted to give you a heads up so you take the call. It would be wise for the Governor to this.

So you recognize the call and email when it comes in, his contact info is: rwhite@mott.org PPI

I also reminded him that Dan is a key person in this and am giving him Dan's info, but it is clear that he wants to talk to the Governor.

I'll call your cell to be sure you see this—I think he is hoping to connect today. Let me know if you receive this and I hope it is ok to give Ridgway your info? Yes? Helen
