Subject: Absolutely astounding editorial by Flint Journal

This is just – irresponsible.

This switch was made while Flint was under control of a state-appointed emergency manager, and we call upon the governor to make this right for Flint citizens by brokering a return to Detroit water that won't bankrupt the city of Flint.

Flint is in a crisis that was created in no small part by Snyder's hand-picked emergency manager and it is Snyder's job to fix this mess.

Officials have said that returning to Detroit water for the short term is not fiscally sound but that is not enough to justify staying with Flint River water. Flint is in the midst of a full-blown water emergency right now and it is incomprehensible that a solution cannot be found with our fellow Michiganders to deliver healthy water.

There is a lake full of healthy drinking water just an hour away and the pipes already in place to bring it here.

Clean water can be ours again.

Make the switch — now — before it's too late.
