Subject: RE: Please bless our reaction to the US EPA announcement?

Just one little change, a matter of subject and verb agreement

Regarding the EPA announcement:

"We are glad to have the continued technical support and counsel from our federal partners. We have been working closely with the U.S. EPA on the challenges in Flint, including **its** added presence on the city's technical advisory and the Governor's 10-point plan. This is welcome news and we anticipate it will help us implement the Governor's strategy."
