

It is timely to figure that out, because what they is not affordable and they are ignoring the new improvements announced today.

Why not, we haven't anything else to do except spend our time chasing our tail. This issue isn't going to go away until we do some serious comms work in the city.

For Immediate Release

City of Flint Moves Ahead with \$5 million in Water Treatment Improvements

Flint, Michigan – April 16, 2015 – Emergency Manager Jerry Ambrose, with approval from the Department of Treasury, has authorized a contract with LAN, the City's consulting engineers, to immediately proceed with design and installation of granulated activated carbon filter for the Water Treatment Plant. Installation of the filter was one of the primary recommendations from Veolia and others as a means to help assure that City water will continue to be within EPA guidelines. Installation is scheduled to begin in Mid-June, with completion by mid-July.

Other action steps are also underway at the plant, including cleaning plate settlers, repairing the clarifier, and adjusting chemical dosing and levels as also recommended. Additionally, a contract is being finalized for the water main leak detection project, hydraulic modeling and flushing is underway, and bids for the replacement of 2 miles of major pipe are being reviewed.

Nearly \$5 million has been budgeted to implement these actions, which in large measure are the ongoing types of action necessary to maintain the water treatment and distribution system. \$2.1 million of this amount is budgeted for replacement of the pipe along Dupont St., and \$1.6 million is budgeted for the GAC, with \$900,000 budgeted for water main leak detection. Actual replacement of the pipe is scheduled to begin in June, and to be completed by early September.
