

- Asking the DEQ to develop a statewide drinking water school testing program.
- Asking for changes in the Michigan Drinking Water Program in order for it to be recognized as a national leader in public health including:
 - o New administrative leadership.
 - o Creation of corrosion control expertise.
 - o Expanded statewide testing.
 - o Improved testing protocols.
- The creation of a health fund for children affected by lead exposure.
- Calling on the Legislature to work with my administration and stakeholders to develop a Strategic Water Fund to address Michigan's long term safe water and water quality infrastructure needs. [This can't get lost. Need more to educate people that our infrastructure is old, that the average city of 50,000 or more likely requires \$\$\$ in remediation. At some point the anti corrosive treatment is not likely to be sufficient.]
- I will look to implement additional recommendations of the Flint Water Advisory Task Force, and I appreciate their leadership on this issue. [I would say more here—the TF was bi-partisan, independent, and staffed by incredible talent. It has done an incredible job].
- Ensure transparency for the public regarding actions taken in Flint to resolve this crisis

Please edit, correct, and expand summaries as indicated in the attached document called Taking Action on Flint Water Draft 12-28-15. This document is intended to serve as a basis for the Governor to address the Flint drinking water issue in the State of the State and budget announcement.

I have also attached a pdf of a document called Drinking Water Program Budget Request for your information.

Please send your response back to me and also copy all by Monday, January 4, 2016, Close of Business.

Thank you.
