Subject: RE: KWA Analysis

Importance: High

No basic assumptions were used. I reviewed the data to attempt to determine the best option.

Certain constraints focused the analysis in certain ways. The Flint EFM eliminated the use of the Flint River and all of the blending options. This decision eliminated all DWSD options with the exception of purchasing 100% of water from DWSD. The Treasurer asked some very specific questions that were addressed in my report. All of this is outlined in my report.

No other assumptions were utilized.

In the interest of time, this is a quick answer. If more discussion is needed, please let me know.

Brom asked if there were certain assumptions you used when you prepared this report and, if so, what were they? I could not remember.
